

THE INNOVATORS OF COMFORT™

What differentiates Stressless®?

- **100% made** in Norway
- The **only seating brand exclusively endorsed** by the Chiropractors Association of Australia
- Offers **more support springs** for greater comfort
- Offers a **contoured** stainless steel frame that shapes to the body
- Offers **patented cold cured foam Comfort Zones™** that allow you to sink deeper into the seat
- The **Glide system** automatically adjusts to your body weight without the need for handles
- The **patented Plus™ system** provides automatic and correct support for your head and lower back
- The **Sleep function** allows you to lay flat with the simple adjustment of the headrest
- The **Balance Adapt™ system** in the Signature base provides a **feeling of weightlessness** via the gentle pivot function
- The recliner bases are made using beech wood – **very strong and will never warp**
- The adjustable footstool also serves as an **additional seat up to 120 kilograms**
- A **height adjustment ring or piece** for additional height requirements is available
- The steel is treated in a closed loop system to **eliminate the release of toxicants**
- Only **water based stains** are used and dust is eliminated through the use of **recycled running water**
- The **foam is moulded directly over the frame**, providing a proper contour for your body
- An **extensive selection** of wood, leathers and fabric colours is available
